

Prop Guard Specifications		
	EU	US
Dimensions (from the clamp clockwise)	51 x 45 x 44 cm	20.07 x 17.71 x 17.32 in
Materials	Carbon Fiber 6061 Aluminium Alloy ABS Plastic	
Product Compatibility	C10 (compatible with M12 platform)	
Weight	910g/pair	32.1 oz
Features	This lightweight and stiff guard protects propellers from impacts. It is highly recommended for use when maneuvering our drone close to buildings or in tight spaces, as it significantly enhances safe operations. The quick-release system allows for attachment and detachment in seconds without any tools, making it convenient and easy to use. Due to its lightweight construction, it does not significantly affect flight time.	
Structure	Holder attached to the motor, the guard itself and a quick-release fastening
